

# CROSS

Writing has been a form of expression of thoughts, ideas and vision for centuries. Given the easy access technological communication offers, writing still remains to be the most preferred personal form of communication. Even in the corporate world all successful deals are concluded with the hand written signature.

In 1846, A.T Cross re-invented writing instruments combining ingenuity with jewelry-quality craftsmanship and called them Cross Pens. For over 150 years Cross pens have come to mean more than a mere writing instrument; for some, it is a family heirloom, some think of it as a symbol of success, some aspire to own a Cross while others have acquired a collection.

Cross strives to satisfy individual and corporate expression with an unsurpassed standard of excellence. With a Cross pen in hand thoughts are fluid and words just flow, Cross becomes an extension of the hand and the mind.

One of the world's most famous writing instruments companies A.T. Cross is known for its excellence and reliability across the world. These qualities have made Cross Pens the preferred choice while presenting a gift to near and dear ones.

Cross symbolizes a timelessness that is rare to find in this fast paced world. Share your celebrations and successes with your customers and colleagues, who, over the years have contributed to your growth and prosperity. Show them how much their support means to you by presenting them with a pen that is deeply rooted in history. Give them a gift that they will cherish for a lifetime. Say thank you with a unique and personal Cross Pen.
